

MassHealth Supplemental Rebate/ Preferred Drug List

This page lists those drugs for which MassHealth has entered into a supplemental rebate agreement with drug manufacturers, allowing MassHealth the ability to provide medications at the lowest possible costs.

The items are listed alphabetically by therapeutic class, then by the name of the drug or drug ingredients. Please note that MassHealth may still require prior authorization for clinical reasons. Drugs that require additional prior authorization requirements are noted with PA on this list.

In general, MassHealth requires a trial of the preferred drug or clinical rationale for prescribing a non-preferred drug within a therapeutic class.
